Chal - 0033
Copy 4 of 5

TO : Deputy Project Director

SUBJECT : Factory Inspection and Repair of Oxygen Regulators

Concur with paragraph 6 of attachment, subject as above. It is strongly felt that every precaution should be taken as regards personal equipment as it is my opinion that failure in this area is the most likely cause for one of our vehicles to fall in enemy territory.

SIGNED

25X1A

Acting Director of Operations

Attachment:

Memo to Dir. of Ops. (28 April 58) *filed in Ops 11 PE file*

HFE/DCI/CFQ:gas
